

# Tweb Trees Sales Analysis (Feb 2025 - June 2025)

I have analyzed the sales data in BigQuery for the period of **February 1, 2025 through June 30, 2025**.

## TWEB Tree Sales

These items are typically unique "The Web" specimen trees or specialty kits.

	Metric	Value	
	Total TWEB Product Units Sold	169	
	Estimated Individual Trees	287	
	Total Net Revenue (TWEB)	\$25,931.35	
	Avg Price / Individual Specimen	\$164.35	
	Avg Price / Tree in Bundle	\$36.59	

**TIP:** The "Avg Price / Individual Specimen" refers to single unique trees, while "Avg Price / Tree in Bundle" accounts for items like the Tropical Trio or 5-Tree Forests where the per-tree cost is significantly lower.

### Bundle vs. Individual Breakdown

	Category	Units Sold	Total Trees	Total Revenue	Avg Price/Tree	
	Individual Specimen	121	121	\$19,886.90	\$164.35	
	Tree Bundles	48	166	\$6,074.45	\$36.59	

### Species Breakdown (by Tree Count)

	Species	Units Sold	Total Trees	Total Revenue	Avg Price/Tree	
	Ficus	54	86	\$9,699.50	\$112.78
